

JIVRAJ KARANDE

Lead, Supply Chain Communication and Reporting

jivraj4@gmail.com | +91 88282 22070 | Pune/Mumbai, Maharashtra/Open to Relocation

SUMMARY

Journalism graduate and Editorial Desk Lead with 6+ years of experience directing high-velocity coverage of global market trends, macroeconomics, and breaking tech/business events. Proven track record of leading newsroom/research teams through fast-paced breaking coverage, enforcing rigorous fact-checking, and optimizing story workflows under aggressive deadlines. Expert in identifying emerging patterns early, transforming complex data into sharp digital reporting, and managing real-time crisis and "Black Swan" event desks.

WORK EXPERIENCE

Lead, Supply Chain Communication and Reporting

RESILINC

April 2023 – June 2026

- Managed and mentored a 10-member desk, directing daily newsroom operations, setting story priorities, and enforcing strict editorial, AP-style, and fact-checking standards across all output.
- Directed 24/7 crisis monitoring (COVID-19, armed conflicts, Black Swan disruptions) operating under tight 4-hour update cadences alongside real-time flash alerts.
- Led internal "Friday Learning Circles" focusing on reporting standards, verification, and prioritizing immediate-impact events.
- Spearheaded the integration of AI-driven research tools and OSINT/SOCMINT tracking methodologies, cutting story turnaround times by 30% and improving story discovery across social platforms.
- Built end-to-end editorial processes, optimizing content output schedules and aligning desk strategy with reader engagement and core organizational goals.
- Overseen high-priority reader/client inquiries, translating complex technical and market developments into clear, actionable, and impactful editorial pieces.

Senior Analyst, Supply Chain Communication and Reporting

RESILINC

April 2021 – March 2023

- Handled rigorous verification of corporate and market data to protect editorial reliability.
- Wrote and published multiple deep-dive reports on fast-moving global events, including geopolitics, elections, and natural disasters.
- Delivered high-quality research quickly during breaking news and market disruptions.
